Client comments : I have just seen it, I think its great, I just need a couple of things added at the bottom our company number and that we are regulated by the CQC.

Our company number : 9287249

We are registered and regulated by the CQC.

I attached a link to one of my previous messages that said CQC code that should have their ICON
Then please make it live thank you so much

Also the picture slide on the homepage can we make that show about 4-5 pictures instead of just 2.
Thank you

Also the logo is too small on first page

Please make the logo larger.

And please also change the image at the bottom of the homepage where it says about us from the girl with the wash basket to another . That pic should only be next to house hold help. Thank you
